

Have All Your Wishes Granted in 2011!

I am sure you know about the story of Aladdin and his magic lamp. In the story, Aladdin picks up the lamp, dusts it off, and the Genie pops up. The Genie always says one thing:

“Your wish is my command!”

Now, some new versions of the story say that there are three wishes, but if you chase the story back to its origins, there is no limit to the number of wishes.

This story is a metaphor for the law of attraction and the power you have within you to create your life and everything in it!

You are **Aladdin!** The Genie is the **law of attraction!** And the power to create the life you want is **within you!**

What is the Law of Attraction? Simply put – you attract what you think, speak and act. We all live in an abundant universe of all possibilities, whether we believe and acknowledge it or not, and you are constantly communicating and negotiating your life circumstances with it through your thoughts, words and actions. Since the law of attraction cannot distinguish between the ‘good’ and the ‘bad’ and it simply manifest your dominant thoughts, words and actions.

I know it is quite daunting to admit that we have created our life, good or bad, and we are responsible for our circumstances. But when you come to think of it you can see how the environmental, financial, social and

international circumstances of the world are generated by the thoughts, words and actions of the people in it. This is true for group and individual level as well – your attention and focus manifests your circumstances!

Going back to the story, it is exactly like having a Genie who grants your wishes. This Genie is always present and listens to everything you think, say and act. The Genie doesn't think – just acts. The Genie assumes everything you think about is what you want! Everything you talk about is what you want! And everything you act upon is what you want!

This year, make the law of attraction work for you. Become the 'master' of the 'genie' who is waiting to grant your wishes.

- **Take responsibility for your circumstances** – know that you have created your experiences. Assigning blame to others (whether they are the politicians, global economy, your employer or the neighbour) when things go wrong and assigning praise to higher powers or disregarding credit when good things happen is equally inhibiting. Taking responsibility to who, where and what you are is the first essential step in beckoning your personal 'genie' to work for you!
- **Acknowledge the power within you** – by saying you have created your current circumstances, you are essentially acknowledging the power within yourself! Imagine how different Aladdin must have felt with the lamp in hand, knowing that his wishes – whatever they are- will be granted by the genie. You should feel the same! You have the power to change your circumstances and create the life you want!
- **Recognise the power of your Thoughts, Words and Actions** – be conscious of what you think, say and do as they create your life experiences, whether they are materialistic, lifestyle, relationships or opportunities, and whether they are good or bad. Your thoughts define you, your words refine your thoughts, and your actions are essentially guided by your thoughts and your words. Your thoughts, words and actions are giant magnets that attract your wishes. Feel the power in them!
- **Consciously use the powerful tools of Thoughts, Words and Actions to create the life you want** –You are what you think! You have millions of thoughts generated in your mind a day and the patterns and themes of those thoughts essentially affect your temperaments, define your character and create who you are. Now, the beauty of this is that what you think is very much within your control! In order to make the 'law of attraction' work, you need to hold and emit your desires through your thoughts. Keep positive

thoughts in your mind. Remember, 'genie' cannot distinguish between the good and the bad. **Think what you want, not what you do not want!**

When you **speak**- do it consciously, precisely and purposely. Your words not only communicate your wished to the 'genie' but also to your fellow human beings around you. Often times, others have the power and desire to make us happy - only if they know what we want! Aspire to be a good communicator. Be clear of your desires, in thoughts and in words, and by doing that you are making it easy for others, including the 'genie', to help you attain them.

Act who you aim to be, not who are right now. It is true - actions speak louder than words! Keep your actions in harmony with your thoughts and words. If you say one thing and do another - on one hand you become hypocrite and on the other hand you make the 'genie' run around in circles in utter confusion!

You are the master of your thoughts, words and actions. Take control over them and orchestrate them to attract what you want.

- **Adopt the 'Attitude of Gratitude'**: know that you attract more by being grateful for what you already have. Acknowledge and celebrate your accomplishments, whether they are big or small. Let the 'genie' know that what you have received so far is exactly what you want and the 'genie' will work harder to get your desires faster to you. Be thankful for all the good things, people and circumstances in your life. And by doing so you are beckoning more of the same!

You have three very powerful tools in you- **your thoughts, words and actions**. Fundamentally and essentially that is all you ever need and ever have to receive, do and be your heart-desired! You live with a 'genie' within you. Your wish is it's command!

Make the 'Law of Attraction' work for you and have a dream-fulfilling New Year!
